

Youth/Student Tour Itinerary

(2-Day Tour)

Day 1

Begin the morning at the Corpus Christi Museum of Science & History for a step back in time at the replicas of the Columbus fleet and receive a guided tour by staff in period costume. Stroll through the in-door exhibit *Seeds of Change* and explore some 500 years of encounter and exchange since Columbus set sail from Spain in 1492. Head to Padre Island National Seashore for some fun in the sun. Explore over a 100 miles of seashore on horseback or soak up the sun while beachcombing and sunbathing. Grab lunch at one of the eateries nearby on North Padre Island and then set your sites for Funtrackers Family Center with over 100 arcades and video games, bumper boats, go-karts and miniature golf. End the long day with a sunset cruise downtown at the Corpus Christi Marina with a tour of the sites and attractions along the bay.

Day 2

Start your morning journey underwater among 250 species at the Texas State Aquarium. Get up close with the Atlantic bottlenose dolphins, see the flying antics of the birds at Hawn Wildflight Theater and splash around with the sea turtles at Tortuga Cay. Just a short walk along Corpus Christi Beach, stop at the USS Lexington Museum by the Bay for a tour of multiple decks and levels of the most famous aircraft carrier in U.S. Naval history. Feel your heart pound as you fly a fighter plane in their simulator and watch a short film in their three-story MEGA Theater during your tour. After lunch at one of the fast and friendly eateries on Corpus Christi beach, stop by the Texas State Museum of Asian Cultures and Educational Center to see thousands of artifacts, costumes and art from over ten Asian cultures. Reserve a workshop in Asian literature, chop sticks etiquette or learn the ancient art of Origami. End the afternoon with a fun-filled adventure at the Art Museum of South Texas or Aloe Tile for a group art project that will give students the opportunity to work together and express themselves.
