

CVB staff make splash with dolphins

Pucker up! Three staff members with the Corpus Christi Convention & Visitors Bureau kissed a dolphin during their site visit to the Texas State Aquarium in July.

Vice President of Technology and Interactive Marketing T.J. Carpenter, Vice President of Nature Tourism & Communications Michelle Horine and Communications Manager Kathryn Garcia experienced the Deckside Dolphin Encounter, which Rachael Griffith, Director of Sales for the aquarium helped to organize the experience.

The Deckside Dolphin Encounter is one of the several interactive experiences offered at the Texas State Aquarium. During the encounter, visitors ages 8 and older can shake hands, touch, kiss, feed, play and even get into the water with a dolphin. The encounter is an additional cost to admission, and reservations are required. The experiences are offered Fridays through Monday.
